NOTIFICATION

RULES RELATING TO THE PROCEDURE TO BE FOLLOWED BY TRIBUNALS AND DISTRICT COURTS IN CASES REFERRED TO THEM FOR INQUIRY UNDER THE BAR COUNCILS ACT.

The following rules have been made by the High Court under section 12 of the Indian Bar Councils Act, 1926, to regulate the procedure to be followed by Tribunals and District Courts in the conduct of cases referred to them for inquiry under section 10 of the said Act, in supersession of the rules published at pages 14-15 of Part II of the *Fort St. George Gazette*, dated 1st January 1929, as subsequently added and amended :—

1. Upon receipt of a case referred for inquiry under section 10 (2) of the Bar Councils Act, the Tribunal or District Court shall forthwith frame a charge or charges on the basis of the complaint, fix a date, hour and place for the inquiry and give notice thereof to the complainant and to the Advocate whose conduct is the subject of inquiry (hereinafter called 'the respondent'), at least twenty-one days before the date of inquiry; provided that in exceptional cases, the Tribunal or Court may in its discretion, postpone the framing of charge or charges until after examination and cross-examination of witnesses for the complainant. The Tribunal or Court shall inform the respondent that he must deliver to the Tribunal or Court his written answer within fourteen days from the date of receipt of notice of inquiry, unless he obtains an extension of time.

2. At the commencement of the inquiry, the charge or charges shall be read to the respondent, his written answer shall be read and he shall further if necessary, be called upon to supplement his written answer and to plead orally to the charge or charges.

3. If, after considering the reply to the charge or charges the Tribunal or Court deems proper to proceed with the inquiry, it shall inform the complainant that he must within fourteen days or such other time as the Tribunal or Court may fix, make application to the Tribunal or Court in respect of any evidence he may desire to have summoned, deposit or bring his evidence on the date fixed without invoking the assistance of the Tribunal or Court, and the Tribunal or Court may adjourn the case to a convenient date. On the adjourned date or any later date on which the Tribunal or Court may take up the case, the case shall be opened on behalf of the complainant; and the evidence in chief in support of the charge or charges and cross-examination and re-examination shall follow.

4. If upon taking all the evidences referred to in rule 3 *supra* and making such examination (if any) of the respondent as the Tribunal or Court thinks necessary, it finds that no case against the respondent has been made out which, if unrebutted, would warrant disciplinary action being taken against him, the Tribunal or Court shall report to the High Court that in its opinion no case against the respondent has been made out or that the complaint against him is groundless, as the case may be, giving reasons for that opinion.

5. If upon taking all the evidence referred to in rule 3 *supra*, the Tribunal or Court finds that a case against the respondent has been made out which, if unrebutted, would warrant disciplinary action being taken against him, the respondent shall then be called upon to enter upon his defence, if he desires to make any defence, and, after closing his case, shall produce any evidence he desires to call.

6. If the respondent, after he has entered upon his defence, applies to the Tribunal or Court to issue any process for the purpose of compelling the attendance of any witness for the purpose of examination or cross-examination, or the production of any document or other thing, the Tribunal or Court shall issue such process unless it considers that such application should be refused on the ground that it is made for the purpose of vexation or delay. Such ground shall be recorded by it in writing.

Provided that, when the respondent has cross-examined or had the opportunity of cross-examining any witness after the charge is framed, the attendance of such witness shall not be compelled under this rule unless the Tribunal or Court is satisfied that it is necessary for the purposes of justice.

7. (1) The Tribunal or Court, having heard the evidence for the complainant and the respondent, shall report to the High Court its finding on each charge that has been framed, giving reasons for its finding.

(2) The findings of the Tribunal, if unanimous, shall be signed by all the members of the Tribunal. If the members of the Tribunal differ in their findings or any of them, all the findings shall be reported to the High Court, being signed respectively by the members whose findings they are. The reasons for the findings shall be reported to the High Court in one report if the members of the Tribunal are unanimous and in separate reports if their findings differ, provided that, whether their findings are unanimous or not, any member may record the reasons for his findings separately and the record so made shall be forwarded to the High Court with the other report or reports of the Tribunal in the case.

8. The respondent may, if he wishes, give evidence as a witness in the inquiry.

9. If on the day appointed for hearing, or any other day, to which the Tribunal or Court shall have seen fit to adjourn the case, the respondent does not appear and if the Tribunal or Court is satisfied that he has been duly served with notice and is absent without reasonable cause, the Tribunal or Court shall proceed to examine the complainant and such witnesses as it has ascertained from the complainant, or otherwise, are likely to be acquainted with the facts of the case. After such examination the Tribunal or Court shall report to the High Court which charges of misconduct, if any, have in its opinion been made out against the respondent giving reasons for its opinion.

10. Evidence given before a Tribunal shall be recorded in English either (1) by a shorthand writer who shall take down *verbatim*, both questions and answers or (2) by the President or some member of the Tribunal chosen by him, who may take it in the form of a deposition. The evidence so taken down shall be signed by the President or member and shall form part of the record.

TENDER FOR CONSTRUCTING SANITARY SPUR FOR THE GENERAL HOSPITAL, MADRAS.

TENDERS will be received by the Executive Engineer, South Presidency Division, at his office at Chepauk, up to 2 p.m. on 8th May 1935, for the work of constructing one Sanitary Spur for the General Hospital Main Building, Madras.

2. The tender should be in the prescribed form obtainable from the Executive Engineer's office. Tenders will be opened by the Executive Engineer, South Presidency Division, at his office on 8th May 1935.

3. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, South Presidency Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorisation. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

4. Each tenderer must pay, as earnest money, a sum of Rs. 300 (rupees three hundred only) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the South Presidency Division and enclose with his tender the chalan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be accepted in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

5. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Divisional office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 300 (rupees three hundred only) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the standard preliminary specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in the paragraph shall entail forfeiture of the earnest money.

6. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in site. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, South Presidency Division.

A copy of the set of contract documents can also be had on payment of Rs. 3 (rupees three only) for each set.

7. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Description Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) earnings;
(3) construction plant;
(4) water and lighting;
(5) cleaning up during progress and for delivery;
(6) accidents;
(7) delays;
(8) particulars of payments.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies the tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, South Presidency Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the Write in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures,

overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connection with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract sum given against it).
Three months ..	100 per cent.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.
